Hello,

We are reaching out with a heartfelt invitation to collaborate on *The Home Project*—a community-based art and storytelling initiative that centers dignity, creativity, and healing.

About the Project

The Home Project uplifts the stories and voices of individuals and families across Oregon—particularly those impacted by housing insecurity, immigration, economic hardship, or cultural marginalization. Participants are offered a \$200 stipend, a professional portrait session, and the opportunity to have their story artistically interpreted by local artists, culminating in a statewide exhibition and digital showcase.

How You Can Help

We are seeking partner organizations to help us identify and refer participants for the photography portion of the project. By partnering with Heartisan Foundation, we aim to help extend the impact of your services and contribute to your current initiatives by facilitating cooperative relationships across Southern Oregon.

Incentives for Your Participation

- **Free, high-quality marketing materials** highlighting your organization's participation and values
- **Priority visibility** at our exhibitions, online platform, and press materials
- **Onsite photography sessions** at your facilities, if desired
- **Deepened engagement and recognition** for families and individuals, highlighting their strength and stories through art
- **Heart-centered collaboration** that supports whole-person and community well-being

Our Timeline

We are currently in the outreach phase (Spring–Summer 2025), with photography sessions planned for July–September 2025. Final exhibitions will launch in Spring–Summer 2026.

We would be honored to get to know your team and dialogue about how best to collaborate and support the communities we mutually serve.

Please reach out to us directly at (541) 622-3933 or heartisan.foundation@gmail.com

With warmth and solidarity,

Abram R. Katz
